EXTEND SERVICES

Bring your Workday Extend vision to life with expert-built, tenant-specific applications designed for your business and your people.

Innovate Beyond Tradition.

WHAT WE DO

We take fully scoped requirements and develop the application directly to your needs, delivering a finished app ready for immediate use. For continued success, we also offer maintenance contracts for periodic updates, cleanups, and enhancements.

VALUE PROPOSITION

For Leaders
Extend your Workday investment with tenant-specific apps—no in-house developers required.

For Doers
Simplify integrations, cut manual processes, and focus on delivering higher-value outcomes.

For Users
Get clean, intuitive apps built to Workday standards. Extend Services reduces errors, minimizes training, and helps you get work done with confidence.

COMMERCIAL DETAILS

Transparency
One clear fee for a bespoke build and deployment—crafted with you to meet your organization's goals.

Continued Support
We provide ongoing support and maintenance, ensuring help is always here when you need it.

No Extra Steps
Systics handles the entire build and deploys directly into your environment once the app is ready and approved. No middlemen, no detours, just the app you need.

READY FOR APPS THAT GROW WITH YOU?
