SYSTICS®

Systics delivers Workday system analytics and Marketplace apps that streamline workflows and unlock business value.

SERVICES

BUILT ON WORKDAY – WHITE LABEL

Systics bridges the gap. You know your customers, we know the Workday ecosystem. Together we turn your concept into a solution that drives value, expands reach, and helps customers get the most from their platforms.

EXTEND SERVICES

For Workday Extend customers who need expert developers to create tenant-specific applications for internal use, we provide the skills to design, build, and deliver solutions that work seamlessly within your Workday environment.

PRODUCTS

SYSTEM ANALYTICS

Conceived from years of Workday expertise, this continuous Review and Recommend process maximizes your investment. It is a one stop command center for tenant visibility, surfacing critical data, flagging gaps, and helping you act before issues arise.

SYNCSTREAM

Simplified Data Management for Mergers, Acquisitions, and Growth. SyncStream is purpose-built to streamline the complex process of loading companies, cost centers, supervisory organizations, and even new employees into Workday: quickly, securely, and without the manual hassle.
